

GMEET Cloud

With the 4 offered subscription plans comes 4 type of schemes.

The **Enterprise Subscription Plan** is related to the total number of employees and meeting rooms. No worries about managing the user licenses within the organization. Everyone is entitled using GMEET Cloud. Benefit from exclusive features that only Enterprise Subscription Plan customers can access, such as unlimited virtual meeting rooms, Microsoft Lync support. All backed up by the GMEET Extreme Enterprise Support Services to ensure your success with a dedicated customer obsession team, 24/7 support.

The **Premium Subscription Plan** is available in so called 'User base Packages'. The smallest user package is the '10 User pack', which means that 10 employees / rooms within the organization are entitled to use GMEET Cloud. In case 5 more accounts should be entitled to use GMEET Cloud, an upgrade to '25 User Pack' is needed.

The **Group Subscription Plan** is available for small enterprises starting with a 5 users package (employees or rooms) which are entitled to use GMEET Cloud. A maximum of 1 virtual meeting room per 2 users can be setup.

The **Unlimited Subscription Plan** is related to the total number of employees and meeting rooms. No worries about managing the user licenses within the organization. Everyone is entitled using GMEET Cloud. Benefit from exclusive features that only Enterprise Subscription Plan customers can access, such as unlimited virtual meeting rooms, Microsoft Lync support. All backed up by the GMEET Extreme Enterprise Support Services to ensure your success with a dedicated customer obsession team, 24/7 support.

GMEET Cloud Enterprise Subscription Plan

All employees are entitled using GMEET Cloud. Benefit from exclusive features such as unlimited virtual meeting rooms and Microsoft Lync support. All backed up by the GMEET Extreme Enterprise Support services (24/7/365)

GMEET Cloud Premium Subscription Plan

GMEET delivers end-to-end cloud-based video conferencing that's as easy, as GMEET and as remarkable as meeting in person. We do it by connecting our award-winning room video systems and mobile apps to our radically simple cloud service. Now everyone, regardless of location, is just one video call away from having a seat in the meeting. No other cloud-based video conferencing solution makes the conference room experience so easy, accessible and frustration free for up to 40 video participants per call. And when you consider that each participant can be either an individual or an entire conference room full of people, you can see the new possibilities of the GMEET connected experience. The Premium service also includes integration with 'Skype for Business' / Lync. Just plug our award-winning GMEET VC ROOM 90 or ROOM 95 video system to the Internet and connect it with GMEET Cloud. From there you can invite your team to participate in your video call and join together as many people on the call as you'd like. Once GMEET Cloud is downloaded onto a laptop and/or mobile device, users can connect to your meetings anywhere, anytime, on any device.

GMEET Cloud Group Subscription Plan

GMEET delivers end-to-end cloud-based video conferencing that's as easy, as lifelike and as remarkable as meeting in person. We do it by connecting our award-winning room video systems and mobile apps to our radically simple cloud service. Now everyone, regardless of location, is just one video call away from having a seat in the meeting.

No other cloud-based video conferencing solution makes the conference room experience so easy, accessible and frustration free for up to 25 video participants per call. Having a GMEET Cloud Core 5 subscription comes along with 2 virtual meeting rooms for group meeting.

Just plug our award-winning GMEET VC ROOM 90 video system to the Internet and connect it with GMEET Cloud. (only from Cloud Group 10 and higher) From there you can invite your team to participate in your video call and join together as many people on the call as you'd like. Once GMEET Cloud is downloaded onto a laptop and/or mobile device, users can connect to your meetings anywhere, anytime, on any device.
