## Video Conferencing for Business

### INCREASE PRODUCTIVITY AND ENABLE REMOTE TEAMS WITH VIDEO CONFRENCING FROM GMEET

#### **Elevate internal and external communications**

Heighten your meetings with stunning, ultra-high definition 4K video and superior audio quality.

#### **Maximize productivity and accelerate decision making**

Increase productivity and make decisions faster by sharing and collaborating across offices in real-time.

#### **Enable remote collaboration and alignment**

Eliminate silos and keep teams in sync across multiple time zones and geographies.

#### **Reduce out-of-office time and travel costs**

With video conferencing from GMeet, you can stop wasting time and money on avoidable travel.

#### **Benefits of video conferencing for businesses**

For all growing businesses, communication is key. Whether collaborating with internal teams or with partners and customers, businesses rely on video conferencing and video-based collaboration to share information, solve problems and make decisions quickly. With video conference solutions from GMeet, your teams can collaborate easily and cost-effectively across offices and with remote workers, keeping projects on time and the business moving forward.

#### **Communicate in real time regardless of location**

Keep employees productive by allowing them to join meetings effortlessly from laptop or mobile no matter where they are in the world. With support for direct video dialing and one-time and permanent video meeting rooms, GMeet ensures everyone gets a seat at the table. Talk to colleagues, customers and suppliers face to face and collaborate in real time over our enterprise-grade, secure cloud platform.

#### **Share content and review business plans with ease**

Whether working remotely or from the boardroom, meetings often necessitate sharing content to adequately communicate ideas and context. With full-motion 4K screen sharing, chat and digital whiteboard support, GMeet helps meeting participants stay engaged. GMeet even supports a full recording solution with cloud storage and secure sharing so colleagues can stay informed even when they can't be there in person.

#### **Increase meeting productivity**

In business, making difficult decisions often means getting a variety of stakeholders to agree on next steps. Whether presenting to large groups, brainstorming with your team or demoing for your customers, GMeet will help you reach consensus and answer questions faster. Join meetings quickly directly in your browser or via apps

for desktop and mobile devices. Start a video call in seconds with directory-based calling and add other participants without needing to send a link.

### **Eliminate unnecessary costs for redundant tools**

Tired of spending money on legacy audio-only or web conferencing solutions? GMeet's holistic video conferencing solution will help you upgrade your collaboration suite while reducing cost and complexity for your employees. Whether live streaming events, hosting your next all-hands meeting or running a quarterly business review, we'll help you improve organizational adoption of video with a consistently great experience across all devices and meeting rooms.

### **Why integrate GMeet video conferencing?**

#### **BEST-IN-CLASS 4K QUALITY**

The GMeet VC ROOM 9200 and 90 series delivers 4K video and 4K content sharing to help users pick up on the fine detail needed when reviewing plans or monitoring equipment levels.

#### **SUPPORT FOR BYOD AND BROWSER-BASED CALLING**

Download the GMeet app for all of your devices or connect right from your web browser with the GMeet web app. All you need is a webcam, internet access and the link to the virtual classroom, and you're ready to connect.

#### **4K GLOBAL NETWORK**

With data centers in every major geography, our industry leading global presence helps you connect with students and professionals around the globe with 4K video and 4K full-motion content sharing quality.

#### **SECURE COMMUNICATION**

GMeet uses best-of-breed data centres with independent third-party security and privacy certifications to ensure the most secure and reliable foundation possible for our customers.
